

THE BEST SOLUTION

fds 9200, 6000 & 4600 Turf Dethatchers

Meeting Your Needs

- Dethatch undulating golf course fairways, boulevards, park land sites and picnic areas. Retrofit flood impact areas.
- Reduces athlete injuries on synthetic sports fields – lowers G-Max rating.
- The equipment extends the life span of synthetic surfaces.
- Assists in core breakup on natural turf and prepares surfaces for overseeding.
- Stands up synthetic fibers for an improved ball roll.
- Tow with an all-terrain quad or tractor.

Are Your Current Practices Adequate

- What is the quality of your sports fields – aesthetic appearance?
- How long does it take to verti-cut your athletic fields – too long?
- Does your equipment work equally well on natural and synthetic turf?
- Can your equipment pick up sharp metal objects left after multiple use activities on the sports fields (eg., bands, shows, concerts)?
- What compaction relief are you achieving on your synthetic surfaces with your current equipment?

Who Uses The fds 9200 Turf Dethatcher

- Professional Sports – Baltimore Ravens, Green Bay Packers, Cincinnati Reds, Los Angeles Coliseum, Cleveland Browns, Emirates Stadium Arsenal Football Club, Wembley Stadium, Commonwealth Stadium and AAMI Park.
- FIFA Women's World Cup, Canada.
